Montgomery Cycle Rides Teithiau Seiclo Maldwyn

Five cycle routes following quiet lanes around the Welsh Border

From 4 to 23 miles

Pum llwybr seiclo yn dilyn lonydd tawel ar hyd y gororau Rhwng 4–23 o filltiroedd

About the Cycle Routes

The five cycle rides based on Montgomery will provide you with beautiful views of the dramatic countryside of the Welsh borders. The lanes are free of heavy traffic and therefore if you need to push up any hill it is easy to do so!

Route 1 – Hendomen and Dolydd Hafren nature reserve:

This route, local to Montgomery, gives an exceptional view over the town (see the front cover) and later on of the castle. An extension allows a visit to a very interesting nature reserve next to the river Severn.

Route 2 – Abermule:

A very attractive valley route is followed by a longish climb from Abermule. However this is rewarded by truly fantastic views as far as Cadr Idris from the flat cycle ride on the top of the hill. Don't miss this one.

Route 3 – Pentreheyling and Churchstoke:

An easy route with only one short sharp hill. There is a water mill near Bacheldre, which produces flour, and there are two opportunities to see the impressive mound of Offa's Dyke. The lanes are beautiful and very rustic.

Route 4 – Abermule and Bettws Cedewain:

Except for two short sharp hills between Abermule and the B4389 this route is relatively easy. The views along the way are very attractive and there are the river Severn, Montgomery canal and Dolforwyn Castle to visit. Newtown can also be visited via a traffic free disused canal and riverside path.

Route 5 – Welshpool:

Apart from a climb past Powis castle grounds this route is relatively easy. Welshpool and Berriew offer amenities and museums. Powis castle is a fascinating National Trust property and the gardens are superb. Check opening times.

Montgomery

Montgomery is a busy little town with an active community spirit and a diverse economy. The traditional agricultural base of the town still exists, but livestock is now sent to the huge smithfield market in Welshpool (about 7 miles away). There are more than a dozen shops and visitors to the town are an important source of income. There are five pubs, most of which serve food. Cycle parking is available in Broad Street.

Trefaldwyn

Tref fach brysur yw Trefaldwyn gyda naws gymunedol weithgar ac economi amrywiol. Mae sylfaen amaethyddol draddodiadol y dref yn dal i fodoli, ond bellach bydd da byw'n cael eu gwerthu ym marchnad enfawr Smithfield yn Y Trallwng (tua 7 milltir i ffwrdd). Mae tua dwsin o siopau yma, ac mae ymwelwyr i'r dref yn ffynhonnell incwm pwysig iawn. Mae pum tafarn, gyda'r rhan fwyaf ohonynt yn cynnig bwyd. Mae lle i barcio beiciau yn Broad Street.

Route 1 – Hendomen & Dolydd Hafren Nature Reserve

Total distance: **4 miles** (13 km) +2.6 miles extension

- 0 miles** Starting from the square in front of the Town Hall take Kerry Street that goes off to the left of the Town Hall. Follow the road as it goes round to the right and up a hill to give a spectacular view over Montgomery – you may have to walk this section, but it is worth it!

Montgomery Castle is a masonry castle standing on a rocky promontory above the town of Montgomery, precipitous slopes to the north and east make this an excellent defensive site. The castle was built by Henry III to counter the growing power of Llywelyn ap Gruffudd in this area of the Marches. It was probably originally built in timber in 1223 and then almost immediately rebuilt in stone and completed by 1234.

- 1.4 miles** Drop down two hills and pass a brown brick water pumping station on your right. Just before dropping down the next hill turn right into a small lane at 2 on the map.
- 2.5 miles** At the end of the lane go straight over at a staggered junction into a lane signposted Hendomen. Take care as visibility to the left is restricted and traffic can be fast. Carry on to the "hamlet centre" with a telephone box on left.
- 2.8 miles** Just on from the telephone box take a very small lane on the right which slopes steeply down to the side of a house. Carry on past farms and a small sewerage plant.
- 3.4 miles** Carefully cross the junction onto New Road. Good view of castle across to the right.
- 3.7 miles** At lane end turn right. Take care, as visibility to the left is restricted. Carry on up hill into Montgomery.
- 4.0 miles** At junction in front of old Sunday school, cross Pool Road and go straight on up Arthur Street to the Town Hall.

EXTENSION OF ROUTE TO NATURE RESERVE

- 2.8 miles** At 4 turn left down the small lane at the side of the telephone box. Drop down the lane to a level crossing. Only cross when the lights are green and ensure all the gates are left closed.
- 3.3 miles** At the lane end turn right onto a wider road opposite Rhydwyman ford. Follow road towards a white farmhouse on a ridge.

Rhydwyman Ford: Rhydwyman (meaning "swift ford") has existed since the 13th Century and was an important river crossing up until the 19th Century.

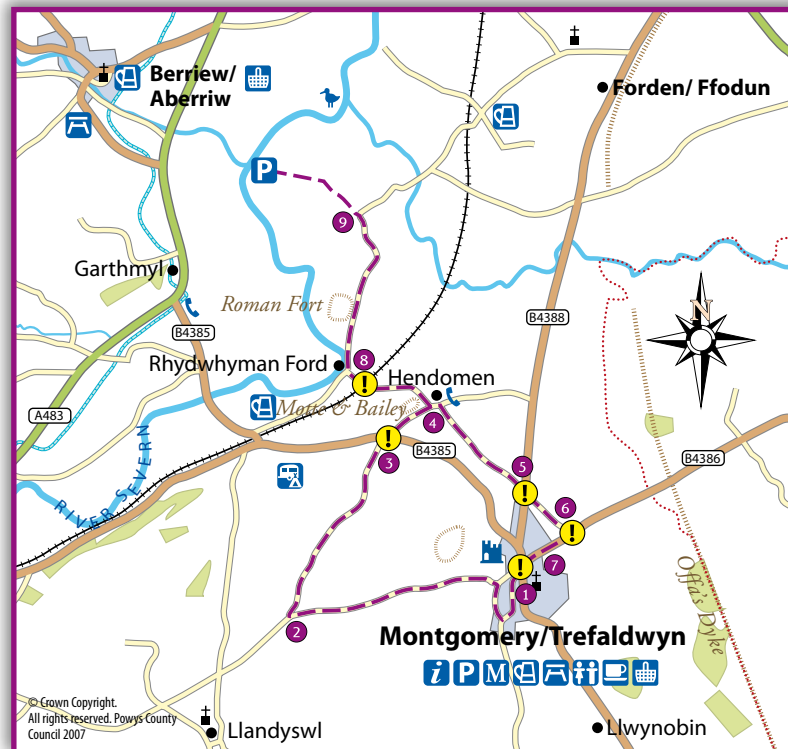

- 4.1 miles** At the large white farmhouse turn left (do not follow the road as it turns sharply to the right) and go straight on down a lane which deteriorates slightly as it drops down the ridge. Follow lane for about 2/3 mile to the nature reserve car park and display board.

Dolydd Hafren Nature Reserve: This reserve is situated by the river Severn and the marshes attract a whole host of different birds. There are two hides and the farthest one from the car park has a lovely view of the river. The 'sightings' log in there is fascinating and gives you a challenge to match the number of varieties seen!

Taith 1 – Gwarchodfa Natur Hendomen a Dolydd Hafren

Cyfanswm y pellter: **8 milltir** (13 km) + 2.6 milltir

- 0 milltir.** Yn dechrau o'r sgwâr tu blaen i Neuadd y Dref, ewch ar hyd Kerry Street i'r chwith o Neuadd y Dref. Dilynwch y ffordd wrth iddi droelli i'r dde ac i fyny'r bryn i roi golygfa fendigedig i chi dros Drefaldwyn. Efallai y bydd rhaid i chi gerdded ychydig fan hyn, ond mae'n werth yr ymdrech!

Castell Trefaldwyn – Castell o waith maen yw hwn sy'n sefyll ar bentir caregog uwchben tref Trefaldwyn. Mae'n safle amddiffynnol gwych oherwydd y bryniau serth i'r gogledd a'r dwyrain. Adeiladwyd y castell gan Henry III i geisio llethu pŵer cynyddol Llywelyn ap Gruffudd yn y rhan hon o'r Gororau. Mae'n debyg mai adeilad o bren oedd hwn yn wreiddiol ac iddo gael ei ailadeiladu'n llwyr o garreg a'i orffen erbyn 1234.

- 1.4 milltir.** Ewch i lawr dau fryn a mynd heibio i orsaf bwmpio dŵr o frics brown ar y dde. Yn union cyn disgyn y bryn nesaf, trowch i'r dde i fynd ar lôn fechan (rhif 2 ar y map)
- 2.5 milltir.** Ar ben draw'r lôn, ewch yn syth dros gyffordd groesgam ac ar lôn sydd ag arwyddbost Hendomen. Cymerwch ofal gan nad yw'n hawdd gweld i'r chwith a gall y traffig fod yn gyflym. Ewch yn eich blaen i ganol y pentrefan gyda'r ciosg ffôn ar y chwith.
- 2.8 milltir.** Yn union wedi'r ciosg ffôn, dilynwch y lôn fechan iawn ar y dde sy'n disgyn yn serth wrth ochr tŷ. Ewch heibio i ffermydd a gwaith trin carthffosiaeth.
- 3.4 milltir.** Croeswch y gyffordd yn ofalus i New Road. Bydd golygfa dda o'r castell ar y dde.
- 3.7 milltir.** Ar ben draw'r lôn, trwch i'r dde. Cymerwch ofal gan ei bod yn anodd gweld i'r chwith. Ewch yn eich blaen i fyny'r bryn i Drefaldwyn.
- 4.0 milltir.** Wrth y gyffordd tu blaen i'r hen ysgol Sul, croeswch Pool Road a mynd yn syth i fyny Arthur Street i Neuadd y Dref.

ESTYNIAD I'R LLWYBR I'R WARCHODFA NATUR

- 2.8 milltir.** Wrth rif 4, trowch i'r chwith i lawr y lôn fechan wrth ochr y ciosg ffôn. Ewch lawr y lôn i'r groesfan wastad. Croeswch pan fydd y goleuadau'n wyrdd a sicrhewch fod y gatiau ar gau.
- 3.3 milltir.** Ar ben draw'r lôn, trowch i'r dde i ffordd lydan gyferbyn â rhyd Rhydwyman. Dilynwch y ffordd tan i chi gyrraedd ffermyd gwyrn ar gribyn.

Rhyd Rhydwyman: Mae Rhydwyman wedi bod mewn bodolaeth ers y drydedd ganrif ar ddeg, ac roedd yn fan croesi pwysig tan y bedwaredd ganrif ar bymtheg.

- 4.1 milltir.** Wrth y ffermyd gwyrn, trowch i'r chwith (peidiwch â dilyn y ffordd gan ei bod yn troi ar unwaith i'r dde). Ewch yn syth i lawr lôn sy'n dirywio ychydig wrth iddi ddisgyn i lawr y cribyn. Dilynwch y lôn am ryw 2/3 milltir i faes parcio a hysbyswrdd y warchodfa natur.

Gwarchodfa Natur Dolydd Hafren: Mae'r warchodfa hon ger Afon Hafren ac mae'r corsydd yn denu llwyth o wahanol adar. Mae dau le cuddio yma, ac mae gan yr un pellaf o'r maes parcio olygfeydd hyfryd o'r afon. Mae'r cofnod sydd yno o'r hyn a welwyd yn hynod ddiddorol, ac yn her i chi allu gweld yr un faint o wahanol adar

Route 2 – Abermule

Total distance: **11.1 miles** (18 km)

- 0 miles** Follow **Route 1** directions to point **2**.
- 1.4 miles** Go straight on down the hill instead of turning right. You will see the village of Llandyssil in the valley bottom.
- 1.9 miles** At the crossroads by the white converted chapel go left if you want to visit the village of Llandyssil or follow the short cut. Otherwise go straight on.
If just visiting the village - turn right at the pub and then follow the road to rejoin the main route at the next crossroads where you turn left.
If following the short cut - turn left at the pub and then follow the lane uphill for about a mile until you reach a crossroads opposite a white house. Rejoin the main route here by turning left at point **9**.

- 2.2 miles** Go straight on at these crossroads if you bypassed the village. Follow the road along the valley.
- 4.0 miles** At the lane end turn left onto a wider road. Soon cross over a railway.
- 4.2 miles** Go straight ahead at the roundabout and along Abermule "main street" and pass a small shop on your left and a pub on the right.

River Severn flows for 200 miles (350km) from high up on the hillsides of the Cambrian Mountains above Llanidloes to the Bristol Channel making it the longest river in Britain.

- 4.5 miles** Turn left onto the B4368 (Clun road) very soon after the shop.
- 4.6 miles** Cross the railway line and immediately turn left into a road sign-posted Cefn y Coed. Follow this road as it climbs through houses and then into beautiful countryside. Stay on this road ignoring all lanes off to left and right until you reach a crossroads by a white house (the short cut rejoins the route here)
- 7.0 miles** Continue straight over the crossroads to the top of the hill where there are superb views.

- 7.6 miles** Very soon after the top of the hill the road splits at a grass triangle with the left hand road sign-posted to Montgomery. Take this road and enjoy absolutely glorious views on left and right from this ridge road. Ignore all smaller lanes and ultimately the road will drop down past a telephone box on your left.
- 9.9 miles** At the junction at the bottom of the hill turn left and follow road back into Montgomery.

Taith 2 – Aber-miwl

Cyfanswm: **11.1 milltir** (18 cilomedr)

- 0 milltir.** Dilynwch gyfarwyddiadau Taith 1 tan i chi gyrraedd pwynt **2**.

- 1.9 milltir.** Wrth y groesffordd ger yr hen gapel gwyn, ewch i'r chwith os hoffech ymweld â phentref Llandysul neu i ddilyn y llwybr byrrach. Fel arall, ewch yn syth ymlaen.

- 2.2 milltir.** Ewch yn syth ymlaen wrth y groesffordd yma os nad aethoch i'r pentref. Dilynwch y ffordd ar hyd y dyffryn.
- 4.0 milltir.** Ar ben draw'r lôn, trowch i'r chwith i ffordd fwy llydan. Yn fuan byddwch yn croesi rheilffordd.
- 4.2 milltir.** Ewch yn syth ymlaen wrth y gylchfan ac ar hyd prif stryd Aber-miwl a phasio siop fechan ar y chwith a thafarn ar y dde.

Mae Afon Hafren yn llifo am 200 milltir (350 cilomedr) o fryniau uchel Mynyddoedd y Cambria uwchben Llanidloes i Fôr Hafren sy'n golygu mai hon yw'r afon hiraf ym Mhrydain.

Route 3 – Pentreheying & Church Stoke

Total distance: **12.4 miles** (20 km)

1 0 miles Starting from the square in front of the Town Hall go to the Main Street away from the Town Hall and below the Church. Turn right into Bishops Castle Street and follow this road (B 4385) for approximately 2.5 miles. This road can carry bursts of traffic at times.

- 4 5.1 miles** As you climb into the wood on your left ignore the steep lane to your right.
- 5 5.3 miles** At the gate go straight on onto a slightly deteriorated lane ensuring the gate is securely closed. Enjoy the views to the left.
- 6 5.4 miles** At the next gate go straight on, firmly closing the gate (this section can become muddy!). Pass Little Argoed farm on your left and drop gradually downhill ignoring a lane on your right.
- 7 6.4 miles** Pass old school buildings that have been converted into workshops and turn left at the junction. Follow the road to the end.

Offa's Dyke: A defensive earthwork dyke built along the English-Welsh border of which there are remains from the mouth of the River Dee to the River Severn, built about AD 785 by King Offa of Mercia, it represents the boundary secured by his wars with Wales.

The dyke covered a distance of 149 miles (240 km), of which 81 miles (130 km) are still standing. It consists of a large rampart and ditch with the ditch usually on the Welsh side. It was laid out to take advantage of natural physical features.
